MEMORANDUM FOR MILITARY AND CIVILIAN PERSONNEL

SUBJECT: Garrison Commanders Policy Memorandum No. 30 – Wide Area Work Flow (WAWF)

1. It is my policy for Garrison directorates and contractors, who receive products and services supported with Garrison resources, to process all receiving reports electronically using WAWF; otherwise, they will not be processed. All contracts will be written to make this policy clear to contractors. There are no exceptions to this policy and the policy is effective as of the date of this policy letter.
2. WAWF is IMCOM's web-based software application that allows vendors to electronically create, submit, and track their invoices, receiving reports, and acceptance of documents. It allows government officials to view and electronically transmit inspection and acceptance of goods and services and allows payment offices to receive invoices and acceptance transactions.
3. WAWF eliminates paper based support functions and saves dollars. Interest penalties are decreased and vendor offered discounts are maximized. Users have global accessibility and documents are not lost or misplaced. Additionally, accuracy is improved due to up-front edits.
4. The point of contact for this policy is the WAWF POC, Garrison Resource Management Office, 791-7739.

GLENN A. KENNEDY, II
COL, SC
Commanding
